

# Protection Through Life

## Life Protection Advantage<sup>SM</sup> Indexed Universal Life

You want a life insurance policy that offers guaranteed protection, but you also need flexibility. Life Protection Advantage helps you confidently plan for your future — while protecting those you care about most.

Life Protection Advantage is an indexed universal life (IUL) policy designed to provide you with:

- Permanent life insurance coverage that may last for your lifetime
- A death benefit that can be guaranteed for a meaningful number of years at an affordable premium
- An accumulation value that has the potential to increase based on the performance of a market index
- Cash value<sup>1</sup> that can be accessed for future expenses<sup>2</sup>
- Flexibility for the future

### Issue Ages

0-85

### Minimum Initial Death Benefit

\$100,000

### Death Benefit Options

**Level (Option 1)** - Your specified amount of insurance will stay the same throughout your policy.

**Increasing (Option 2)** - Your death benefit may increase over time and will equal your specified amount of insurance plus the policy's accumulation value.

### Premium Payments

Your policy premiums are flexible, meaning that you can increase or decrease the amount of your payment.

As long as your surrender value is sufficient to cover your monthly deductions, your policy will remain in force.

### No-Lapse Protection

By paying premiums equal to or above the long-term no-lapse protection premium, you are guaranteed that your death benefit will last until age 90.<sup>3</sup>

After the no-lapse protection period, your policy can continue on a non-guaranteed basis.

## Accumulation Value

Your policy's accumulation value earns interest at a rate that is calculated based on the performance of the chosen index or at a current fixed rate of interest. The minimum guaranteed rate for all index interest crediting strategies is 0% and the minimum guaranteed rate for the fixed account is 2%.

## Index Interest Crediting Strategies

You can allocate your values among the following four index interest crediting strategies:

- **S&P 500® One-Year 100% Participation**
- **S&P 500® One-Year High Participation**
- **S&P 500® One-Year Uncapped**
- **BofA U.S. Agility Index: One-Year Uncapped**

All strategies use an annual point-to-point crediting method.

## Access to Your Cash Value<sup>1</sup>

You have access to your cash value<sup>1</sup> through income-tax-free loans and withdrawals.<sup>2,3</sup>
